

TECHNICAL SERVICE ACCOUNT MANAGER

Position Description:

We are seeking recent college graduates with a technical degree (Engineering or related discipline). Focus in water treatment is a plus. Candidate must be career-minded, self-driven and have a passion to learn and grow within an expanding organization.

This position would be responsible for servicing and managing (and possibly bringing on) new Water Treatment accounts. Usually, they start with a base of accounts and are expected to grow to a territory size. Base salary is paid until the territory has grown to the base dollar value, then a commission is obtained.

Education Preferred: 2+ year Technical degree

Experience Preferred:

- Solid work experience throughout collegiate career
- Sales/Customer Service experience
- Water treatment experience

Duties include (but not limited to):

- Selling to new and existing customers
- Managing whole accounts
- Monthly water testing
- Surveying new prospects
- Troubleshooting/ on-site problem solving
- Proposal and letter writing
- Operation of entire territory; full responsibility for customers therein.
- Physical Ability: Able to carry a 30-pound backpack through the city and climb safe ladders.

Income Range and Formulated: Call for range details. Based on bonuses, commission and size of territory.

Benefits Provided: Health Benefits, Dental, 401k, 10 paid time off days/year, 7 paid holidays, Use of Company Vehicle, Cell Phone (iPhone), Laptop computer, Office Area **Benefits assume full-time status**
